## E-Learning

### Introduction to Disability-Inclusive Humanitarian Action

#### WHAT?

In this E-learning course you will learn how to mainstream disability in humanitarian action with a focus on programming, including:

- The **rights-based understanding of disability** in humanitarian action
- The **IASC Guidelines** on Inclusion of Persons with Disabilities in Humanitarian Action
- The **4 Must-Do-Actions** and how to implement them
- The meaning of **inclusive humanitarian action, disability mainstreaming**, and key approaches
- The definition of **universal design, accessibility, and reasonable accommodations** and how to apply them in humanitarian action
- The understanding and importance of inclusive **accountability to affected populations**.

#### Scan me!

You can access the course at [Disaster Ready](#) or [Kaya Connect](#). The course is available in English & French!

#### To WHOM?

The course is relevant for anyone involved in humanitarian project or programme planning, design, management, monitoring & evaluation or any others interested in disability inclusion in humanitarian action.

#### By WHOM?

Developed in collaboration with the [Reference Group on Inclusion of Persons with Disabilities in Humanitarian Action \(DRG\)](#) and financially supported by the Phase 2 and Phase 3 of the “Leave no one behind!” projects.
